

ICS4ICS
Incident Command System
for Industrial Control Systems

ICS4ICS NEWSLETTER

1 APRIL 2026

ISA OT Cybersecurity Summit

We hope you will join us for the 6-hour ICS4ICS Exercise at the 2026 ISA OT Cybersecurity Summit in Prague on Tuesday, June 16, 2026. You can register at: [ISA OT Cybersecurity Summit](#)

NOTE: There is an early bird discount now through 17 April 2026 for the **OT Cybersecurity Conference registrations!** There is no discount for the ICS4ICS workshop fee of \$125.

Join ICS4ICS Meetings

ICS4ICS has resumed our monthly meetings and would like you to participate. These are the ICS4ICS meetings we have scheduled:

- ICS4ICS Monthly Status meetings to allow you to get information about ICS4ICS related activities and provide feedback
- ICS4ICS Exercise and Resource meetings will allow you to help shape the exercise, tools, and templates used by participants to create ICS4ICS and Cyber Incident Response plans
- ICS4ICS Awareness & Outreach bi-monthly meetings to allow you to review ICS4ICS awareness materials and provide input on outreach activities
- ICS4ICS Training & Credentials bi-monthly meetings that allow you to provide input on the ICS4ICS training materials and help promote ICS4ICS credentialling

If you have not received meeting invitations, please register to join us: [Contact ICS4ICS | Collaborate with ISA Global Cybersecurity Alliance](#)

2026 ICS4ICS Business Plan

ISA developed and approved the following 2026 ICS4ICS Business Plan with these activities:

-  **ICS4ICS/FEMA Training/Exercise:** Combine ICS4ICS and FEMA Training materials that can be licensed for training events
-  **ICS4ICS/Cyber Incident Response Team (CIRT):** Provide templates, training, and exercises to enable asset owners to quickly create their own plans via a subscription fee
-  **ICS4ICS Consulting:** Create consulting tools and a network of consultants who can help asset owners who require hands-on assistance
-  **ICS4ICS Program Activities:** Manage ICS4ICS website, meetings, and various other ICS4ICS related activities

ICS4ICS and CR-ISAC Symposium Highlights

On March 3, 2026, ISAGCA member Megan Stamford facilitated Mobilizing for Cyber Incident Management: ICS4ICS & CR-ISAC, a joint symposium with ICS4ICS, CS2AI, and CR-ISAC. The event explored how the Incident Command System can support cyber and OT incident response and highlighted ICS4ICS as a key coordination link across policy, operations, and surge support.

Megan shared overall outcomes from the program:

-  Reinforced ICS as a proven framework for large-scale cyber and OT incident response.
-  Validated ICS4ICS as the link between government response, private sector operations and CR ISAC's civilian reserve.
-  Identified next steps for expanded exercises, credentialing and stronger engagement with federal stakeholders.

Other ICS4ICS-related NEWS:

The ICS4ICS Exercise Team is working to update ICS4ICS materials based on feedback from the Brussels ICS4ICS Exercise held June 20, 2025, at ISA OT Cybersecurity Summit and the Orlando Disney World ICS4ICS Exercise on Oct 8, 2025, at ISA Automation Summit & Expo

You can join ISA-99 WG-16 (work group team) in their effort to develop a 62443 cyber incident response standard. **For more information contact standards@isa.org**
